

reimagine CANCER CARE

GIVE FOR HOPE. GIVE FOR GOOD.

SANFORD
ROGER MARIS
CANCER CENTER

SANFORD
HEALTH
FOUNDATION

HEALTH MEANS *everything*

Sanford Health is improving the human condition through health and healing for all. The Sanford Health Foundation supports this mission by building human connections and inspiring generosity. Philanthropy supports everything from big, innovative projects to meaningful details that make a difference for patients but may not otherwise be possible.

100% OF EVERY GIFT STAYS LOCAL

We promise to honor your goals and intentions, investing 100% of your gift in the people and programs that you believe in...and that our patients and community rely on.

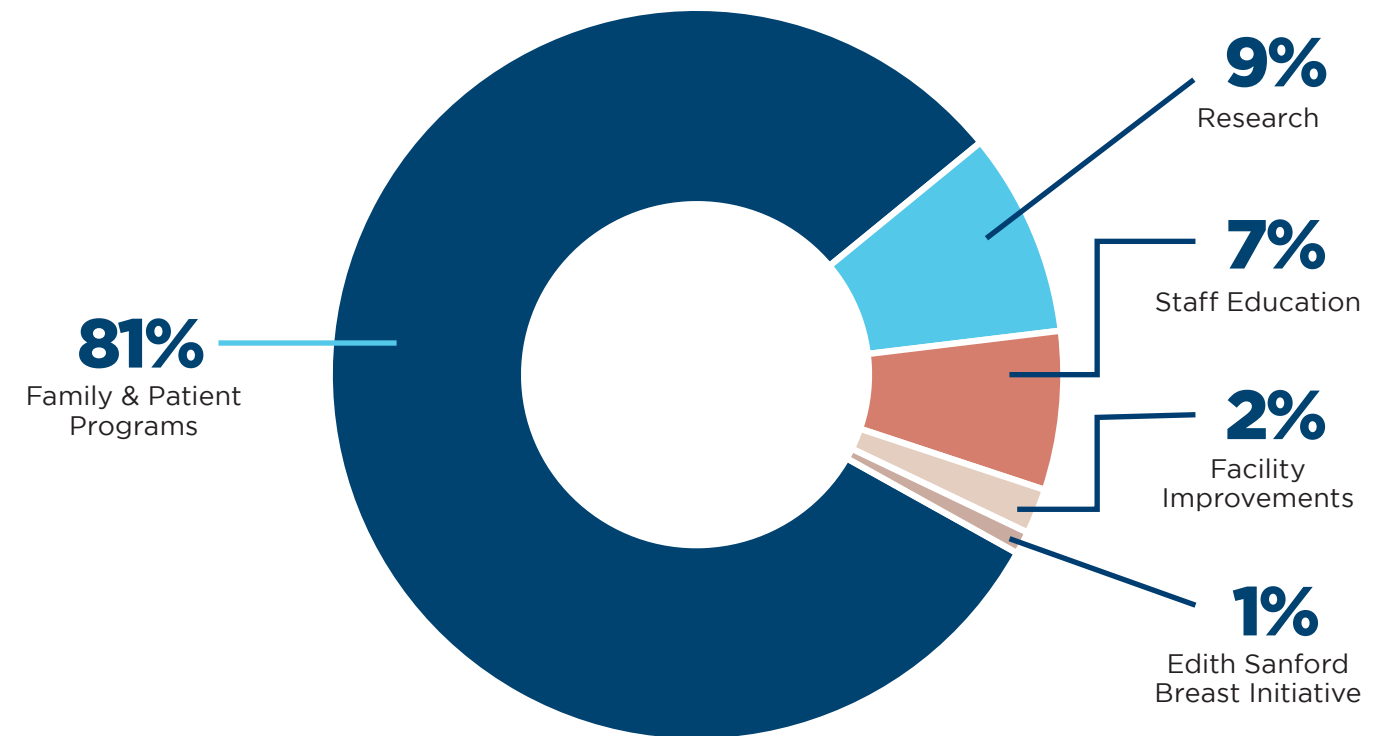

HELP US REIMAGINE THE FUTURE OF *cancer care*

As an individual passionate about fighting cancer, we invite you to support our Reimagine campaign to transform the future of care at Sanford Roger Maris Cancer Center.

Since Roger Maris opened in 1990, its lifesaving mission has not changed, but cancer treatment and the needs of our patients have. This is your chance to help us make Roger Maris a destination for cutting-edge cancer care for generations to come.

100% of your gift to the Reimagine campaign will advance health, healing and comfort.

HOW EVERY DOLLAR IS USED

Every dollar you give is an investment in a new era of cancer care at Roger Maris.

ADVANCING HEALTH, HEALING & comfort

HEALTH

PATIENT TREATMENT AND SERVICES

Enhance and expand programs that meet patient needs, such as:

- The region's first bone marrow transplant program, which will also make innovative treatments like CAR T cell therapy and immunotherapy possible
- Nurse navigation to guide patients through every stage of their journey
- Art, music and massage therapy
- Financial assistance for patients to help cover the costs of treatment-related transportation, meals and lodging
- Survivorship programming, including mentorship and support groups for patients and their families
- Featured programs and amenities for pediatric oncology patients

HEALING

RESEARCH

Fuel initiatives to advance the treatments and cures of tomorrow, including:

- Edith Sanford Breast Initiative clinical research studies
- Early phase clinical trials and access to latest treatments
- Translational research

EDUCATION AND TRAINING

Help recruit and train oncology workforce of the future by fueling:

- Three-year Hematology and Oncology Fellowship
- Educational resources and programming
- Strong partnership with local universities on education, research and workforce development

COMFORT

PATIENT LODGING

Nearly half of Roger Maris patients travel 50 miles or more for treatment. Possible only through philanthropy, increased patient lodging is a critical need that will:

- Allow bone marrow transplant patients to stay close to the hospital
- Create a healing and welcoming environment for patients and families
- Increase our capacity to accept new patients and decrease their wait time

SANFORD HOSPICE HOUSE

The only inpatient hospice house in North Dakota supports priorities like:

- Grief and support programs offered through spiritual care, Child Life and licensed professionals
- Amenities and programs for patients and families
- We Honor Veterans ceremony and program to honor hospice patients who are veterans

“

I'm *very thankful* for Roger Maris.
Donor dollars have made a big difference in
providing the staff and the care that made me feel
more human, more like I was a person and not just a
number. And I really do appreciate that.”

KATHY SCORE

“

I've *seen firsthand* where
all the funds go. And to know this facility is funded
by so many generous donors, that's what
makes it special because everybody owns
a piece of Roger Maris.”

MICHELLE REITAN

GIVE FOR *good*

Year after year, an increasing number of men, women and children across North Dakota, western Minnesota and beyond turn to Roger Maris Cancer Center for hope, healing and comfort.

With your support, we can help enhance the programs and services patients count on today while driving innovation and helping reimagine a new era of care at Roger Maris Cancer Center.
